

# MABIOR DUOM

Front-end Developer

## SUMMARY

I'm a front-end developer with over three years of experience having a solid grasp of responsive design, delivering ideal user experience (UX) and user interface (UI).

## EXPERIENCE

### Intern at ACOP

May 2021 – August 2021

- Improved the UX and UI of the company website.
- Assisted senior developers in the development and maintenance of a management system that kept track of company details like their employees.
- Collaborated with other developers to discuss new features.
- Software installation & configuration of operating systems, Linux & Windows as well as software testing and debugging.
- Worked on website optimization for faster loading time and better user experience by minifying code, image optimization and compression among others SEO methods.

## PROJECTS

### Saul-Firm - Live Demo

A law firm website concept with multiple types of law under one roof such as Corporate, Criminal, and Real estate laws.

### Animalia - Live Demo

This is a website rising awareness of wildlife animals and how we humans can help to conserve them before they go extinct.

### Universe - Live Demo

Built from my interest in the Universe. Get to know about the universe and solar system, enjoy exploring.

### Karasi - Live Demo

Find a wide selection of stylish and comfortable chairs for any room in your home or office.
